# ALIEN ATTACK!

Hostile aliens--Xenophobes--are infesting space stations vital to your planet's security. These aliens threaten to overrun the stations, rendering the space stations useless.

You are part of an elite team which is ready to speed to these endangered space stations. Your mission is clear: destroy the aliens, regain control of the space stations, and pick up any valuable hardware you might discover as you sweep the stations for aliens.

The aliens are a swarming band of uglies, straight out of your worst nightmare. You'll need to use your talent just to stay alive as you rid each space station of these pests. You don't want to let them catch you. It's them or you.

The message has come. It's up to you and your teammates to cleanse each space station of aliens. Your Mother Ship brings you to the vicinity of each overrun space station. You then enter the space station via a transfer disk, which beams you aboard.

Another member of your elite squad can work stations too, and you may compete for high score, or work on your own to clear the aliens from an infested space station. Just be careful as you enter a space station. The aliens are everywhere!

## GETTING STARTED

1. With your television switched on, insert the Xenophobe cartridge into your Atari 2600 (or 7800) as explained in your owner's manual.
2. Plug a controller into the left port for a one-player game. Plug a second controller into the right port for a two-player game.

**Note:** Each player is independent. The death of one player does not affect game play for the other player.

3. Press the console's **Power** switch to turn on the machine. The Xenophobe title screen appears.
4. Press **Select** to select a one- or two-player game.
5. Press the left controller's fire button or **Reset** to begin the game.
6. To restart the game, press **Reset**.

**Note:** An awards ceremony occurs after each space station adventure. If you die there is no ceremony. During this ceremony point value data is displayed on the aliens you destroyed. The valuable hardware you retrieved displays as the point value is added to your score.

## Split-Screen Play

Xenophobe's split-screen lets two players move independently. You view each player's game action on a separate half of the screen. The left controller (player 1) corresponds to the top-screen view while the right controller (player 2) corresponds to the bottom. Players alternate their play. Player 1 competes and when done, Player 2 begins playing.

**Note:** The size of a player's viewing screen is the same whether you are playing a one-player or two-player game.

## PLAYING THE GAME

The game begins with you leaving the Mother Ship for one of the eighth alien-infested space stations. Once you finish the eighth space station, you return to the first space station which the aliens have reinfested. Each base has a different number of levels as follows:

Space Station	Number of Levels
1	1
2	2
3	3
4	4
5	3
6	2
7	3
8	4

Each space station has eight rooms on each level. To move from room to room, move to the edge of the screen. You automatically move into the next room.

To reach a different level, you must use the elevator found on each level. Stand in front of the level number and push up on the controller. When the elevator arrives, step in and move the controller forward or backward to move up or down a level. There are no stairs between levels.

### Finishing a Mission

There are two ways in which you can finish a mission at a space station. Each of the two mission endings offer an increasing number of points.

If you take too long in clearing a space station, the aliens overrun the station. The amount of time you have to clear a space station depends upon the space station and the number of floors. If you wait too long, the screen flashes and you are automatically transported back to the Mother Ship as the aliens overrun the space station and the station explodes.

If the aliens overrun a space station, you earn 100 bonus points for each alien you destroy at that space station. Then it's back to the Mother Ship and on to the next infested space station.

The best ending for a mission is your destroying or driving off all aliens on a space station. You receive a 300-point bonus for each alien you destroyed at the station and a percentage increase equivalent to a 200-point health bonus. Then you return to the Mother Ship and prepare to board the next infested space station.

### Destroying the Aliens

Your first objective is to destroy or drive off all aliens in a space station within the allowed time. Destroying an alien isn't easy. Unless you use the minimum amount of force to destroy a particular type of alien, the alien lives and continues to threaten you and your mission.

The minimum amount of force needed to destroy a particular type of alien is as follows:

Critter.....	1 unit of force
Pod.....	2 units of force
Tentacle.....	4 units of force
Rollerbaby.....	4 units of force
Snotterpillar.....	15 units of force

### Collecting Hardware

Pick up any valuable hardware you find strewn around a station you are sweeping for aliens. You can gain extra points or restore lost health points with what you find. (See point values in **SCORING**.)

## Weapons

You begin play with a Phaser. In addition to hardware, you will also find weapons scattered throughout a space station. (See point values in **SCORING**.)

Pick up these weapons for extra points, then use the weapons to destroy aliens. But remember you can only have one weapon at a time. Switch weapons if the weapon you find is more powerful than the one you are carrying.

When you pick up the new weapon, you drop your current weapon. But be careful, sometimes a weapon will explode when you are knocked down by an alien.

Each weapon has a different power level. Plus your weapon won't run out of ammunition. The weapons you can use and their strength are as follows:

Fists.....	1 unit
Phaser.....	1 unit/shot
Laser Pistol.....	2 units/shot
Electric Rifle.....	3 units/shot
Poofer Gun.....	9 units/shot
Grenade.....	10 units/shot

## Danger to the Player

While you're sweeping the aliens from your planet's space stations, those same aliens are after you and can destroy you. Injuries to your player are measured in units, or units/second of contact with an alien. So watch your health bar in the middle of your screen. The health bar is the same color as your uniform. You begin with 100 percent, equivalent to 1000 health units.

You can lose units of health through the following injuries or attacks:

Attack by a Critter.....	2 units/second
Hit by a Tentacles.....	4 units/second
Attack by a Rollerbaby.....	8 units/second
Hit by a rolling alien.....	50 units
Hit by spit (phlegm).....	75 units
Hit by a leaping alien.....	150 units

## STRATEGY

Your primary mission is to locate and eliminate the aliens as quickly as possible. Don't spend too much time searching for valuable objects.

The aliens are clumsier and easier to kill at the lower levels of a space station. Save your best firepower for the scariest aliens, and remember that your biggest challenges await at the higher levels.

Be ever alert for the aliens' varied means of attack.

Shoot tentacles by jumping and quickly firing.

Use grenades to destroy aliens rolled into balls.

## SCORING

You receive points for destroying aliens, picking up valuable hardware during your mission in each space station, and for finding and picking up health objects which increase your life.

### Killing Aliens:

	Tentacle.....	125 points
	Snotterpillar.....	100 points
	Rollerbaby.....	75 points
	Critter.....	50 points
	Pod.....	25 points

### Picking Up Weapons:

	Grenade.....	500 points
	Poofer Gun.....	400 points
	Lightning Rifle.....	300 points
	Laser Pistol.....	200 points
	Phaser.....	10 points

### Picking Up Valuable Hardware:

	Clipboard.....	500 points
	Transmitter.....	500 points
	Skull.....	500 points
	Can.....	500 points
	Screwdriver.....	500 points
	Knife.....	500 points
	Rope.....	250 points

### Health Points:

	Burger.....	50 units
	Flask.....	50 units
